

EX3210

Multimedia Projector

Spectacular Presentations Made Easier.

The easy-to-use EPSON® EX3210 delivers exceptional performance and versatility. With Epson's intuitive control features like USB Plug 'n Play instant setup and our new, breakthrough horizontal image correction with convenient, easy-slide control, setting up your presentation has never been easier. The EX3210 also offers the flexibility to present JPEG slideshows from any thumbdrive or USB memory device without a computer. And with Epson's 3LCD, 3-chip technology and 2800 lumens of color/white light output,¹ the EX3210 will captivate audiences with brilliant images and true-to-life color. The Epson EX3210 is the smart choice for the savvy professional. When you're ready to step up your game, the EX3210 will be ready for you.

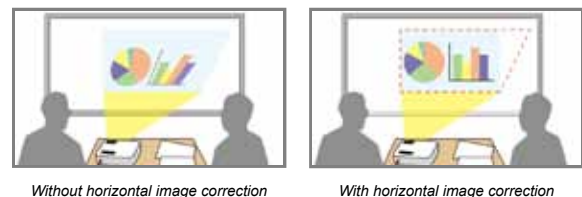

The best-selling projectors in the world

Epson offers a wide range of high-quality projectors to meet almost any need. Built with image quality and reliability in mind, Epson projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From ultraportable projectors designed for educational settings to boardroom-ready business projectors, Epson has a model that's perfect for you.

Fast, easy setup and control

Easy horizontal image correction with the new easy-slide control

Epson's horizontal and vertical image (keystone) correction means you can project a rectangular image from almost any angle. The EX3210 automatically corrects the image vertically. And for horizontal image correction, just move the easy-slide control bar to make the necessary adjustments. Your EX3210 can be off to the side and above or below the screen, while your presentation is front and center.

EX3210

Multimedia Projector

Advanced USB Plug 'n Play instant setup from your PC or Mac[®]

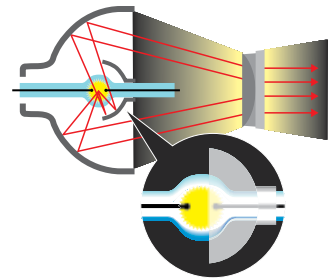

Epson's advanced USB connectivity enables instant Plug 'n Play setup for both audio and video. Forget about complicated computer key sequences and non-intuitive controls. Instead, just plug in a standard USB cable and let your presentation impress the audience!

Quick, convenient control

Features Instant Off[®]/On, so no warmup or cool down time is required. The A/V Mute Slide instantly pauses the presentation to bring the focus back to the presenter. And, the energy-efficient Sleep Mode decreases your overall cost of ownership.

Energy-efficient E-TORL[®] lamp

- Delivers more lumens per watt and lasts up to 5000 hours²
- Minimizes both light diffraction and light leakage
- E-TORL lamps maximize your presentation time, while minimizing your costs

Remarkable image quality

Spectacular quality and color with 3LCD technology

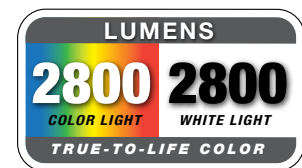

Innovative technology with proven reliability

- 3 chips for full-time, true-to-life color
- 25% less electricity required per lumen of brightness when compared to 1-chip DLP projectors³
- Over 20 years of road-tested reliability built into every projector

Amazing color and white light output

The Epson EX3210 delivers 2800 lumens of color light output and 2800 lumens of white light output¹ for rich, colorful images. Whether you're projecting images with deep, dark colors or a white screen with minimal text or graphics, you get consistent light output. And, with Epson, you can be confident you're getting what you need because Epson measures white light output according to the ISO 21118 standard, a more rigid standard than the outdated ANSI lumens rating used by competitive products.

EX3210

Multimedia Projector

Features/Benefits

- Rich, true-to-life color and reliable performance — 3LCD, 3-chip technology
- Amazing image quality — native SVGA (800 x 600) resolution; up to 3000:1 contrast ratio
- Super bright and colorful — 2800 lumens color light output, 2800 lumens white light output¹
- USB Plug 'n Play instant setup — instantly projects audio and video from a PC or Mac via a USB connection
- Horizontal and vertical image correction — projects rectangular images from any angle; just move the easy-slide control bar to make the necessary horizontal image adjustments; vertical adjustments are automatic
- PC-free slideshows — via a USB thumb drive
- Quick, convenient control — Instant Off/On, Sleep Mode (A/V Mute), Direct Power Off/On
- The ultimate in portability — compact, lightweight design; carrying case and remote control included
- Energy-efficient E-TORL lamp — up to 5000-hour lamp life²
- Filters to protect your investment — with easy side access for hassle-free maintenance

Epson EX series

Ready for action in the office, at home, or on the go, Epson EX projectors offer vibrant, true-to-life color for stunning presentations and exciting entertainment. Get instant setup with one-step USB Plug 'n Play capabilities and innovative image alignment features. Maximize your presentation time and minimize your costs with an energy-efficient E-TORL lamp. And, enjoy Epson's legendary reliability with a one-year limited warranty including Road Service. When you're ready for a powerful projector experience, the EX series will be ready for you.

MegaPlex™ MG-850HD

Portable digital dock projector and speaker combo

Devices sold separately

Your Digital Lifestyle — Shared.

Get ready to super-size your digital lifestyle with the MegaPlex MG-850HD portable digital dock projector and speaker combo. This revolutionary product reinvents how you share presentations, slideshows, high-def movies, audio and more. The easy-to-use MegaPlex MG-850HD eliminates the confinement of small screens and lets you share multimedia content from your digital device, from the boardroom to the media room. Place your Apple® device in the built-in dock. Or, connect your smartphone, tablet, gaming console, PC and more¹. Remarkable resolution and bright output (2800 lumens of color and white light output²) ensure vivid content, even when it's enlarged to a 100-inch image. Add in the built-in stereo speakers and portable design and MegaPlex MG-850HD is sure to transform how you collaborate and interact, whether at work or at home. Simply connect, project and play.

Super-size HD content from digital devices — easily scale up presentations, movies and more (up to 12x larger than a 40-inch screen)

Ultra-bright and saturated colors — HD 720p resolution and 2800 lumens color and white light output² to display large images clearly

USB Plug 'n Play instant setup — instantly projects audio and video from a PC or Mac® via a USB connection

The best-selling projectors in the world

Epson offers a wide range of high-quality projectors to meet almost any need. Built with image quality and reliability in mind, Epson projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From ultraportable projectors designed for educational settings to boardroom-ready business projectors, Epson has a model that's perfect for you.

MegaPlex™ MG-850HD

Portable digital dock projector and speaker combo

3LCD technology — for quality and color that's beyond amazing

Innovative technology with proven reliability

- 3 chips for full-time, vibrant color
- 25% less electricity required per lumen of brightness when compared to 1-chip DLP projectors³
- Over 20 years of road-tested reliability built into every projector

Amazing color and white light output

The MegaPlex MG-850HD delivers 2800 lumens of color light output and 2800 lumens of white light output² for rich, colorful images. Whether you're projecting images with deep, dark colors or a white screen with minimal text or graphics, you get consistent light output. And, with Epson, you can be confident you're getting what you need because Epson measures white light output according to the ISO 21118 standard, a more rigid standard than the outdated ANSI lumens rating used by competitive products.

See the big picture

Brilliant, awe-inspiring projection lets you display media from virtually any digital device with stunning clarity and color up to 12x larger than a 40-inch screen.

Versatile connectivity

Just dock your Apple iPhone[®], iPad[®] or iPod[®], or connect your PC, smartphone, gaming console or other digital device, and share content. Use your Nintendo Wii[™], Microsoft Xbox[®], Sony Playstation[®], PC, Mac, TV receiver, DVD player, Android[™], smartphone and more! (cables not included)

HDMI input for high-quality, high-definition video

- Deliver both audio and brilliant HD video content with just one cable
- Compatible with the latest laptops, Blu-ray[®] and media players

Content at your fingertips

Whether you use the touchscreen of your docked Apple device, the remote control or control pad of another device, the MegaPlex MG-850HD makes it easy to instantly share your media and project your ideas above the rest.

Built-in, big audio from a portable projector

The MegaPlex MG-850HD's two built-in 10-watt stereo speakers deliver crisp sound for your presentations, audio files, movies, games and more.

MegaPlex™ MG-850HD

Portable digital dock projector and speaker combo

Advanced USB Plug 'n Play instant setup

Epson's advanced USB connectivity enables instant Plug 'n Play setup, for both audio and video, from a computer. Forget about complicated computer key sequences and non-intuitive controls. Instead, just plug in a standard USB cable and let your presentation impress the audience!

PC-free slideshows

- Just plug your USB memory device into the USB port, and you are ready to display whichever slide you choose from the drive
- Compatible with the following file formats: JPG/BMP/GIF/PNG/FSE/SIT
- Create a slideshow using files on the USB drive

Features/Benefits

- **Super-size content from digital devices** — easily scale up presentations, movies and more (up to 12x larger than a 40-inch screen)
- **Ultra-bright HD images with saturated colors** — HD 720p resolution and 2800 lumens color/white light output² to display large images clearly
- **Built-in dock** — perfect for your Apple iPod, iPhone and iPad; also charges them while docked
- **Versatility for a wide range of devices** — simply connect, project and share your presentations, movies and more
- **Big stereo sound** — two built-in 10-watt speakers enhance your presentation with audio or amplify the speaker's voice (includes mic input)
- **Built to travel** — carrying handle makes it easy to take anywhere (electrical outlet required)
- **Maximum flexibility** — HDMI plus other audio/video connections
- **Share audio files** — can be used as a speaker dock without displaying video
- **Rich, vibrant color and reliable performance** — 3LCD, 3-chip technology
- **USB Plug 'n Play instant setup** — instantly projects audio and video from a PC or Mac via a USB connection
- **PC-free slideshows** — plug your USB memory device into the USB port and present

LabelWorks™ LW-300 Label Printer

Take Ordinary to Extraordinary™

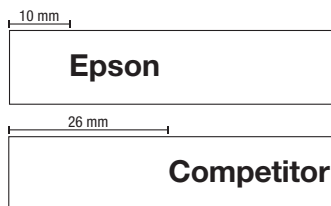

The EPSON® LabelWorks LW-300 label printer is where everyday organization meets imagination. No longer restricted by simple options, you can choose from a huge range of symbols, frames and fonts.

The LW-300 is compatible with dozens of tapes in a variety of styles, borders, sizes and colors, so your creativity can be boundless. The LW-300 is both

powerful (save up to 30 self-created label designs with built-in memory to prevent redundant work) and efficient (dramatically smaller lead margins mean up to 60% less label waste). It's perfect for creating professional-looking labels at home or in the office — for files, storage bins, household items, clothing and just about anything else. Explore the amazingly versatile LW-300 label printer and celebrate your creative expression.

Amazing versatility

The LW-300 offers 14 fonts, 10 font styles, 300+ built-in symbols, over 75 frames and glow-in-the-dark and reflective options. With so many choices for creative expression, you'll finally have labels that catch up to your imagination.

More convenience with less waste

Dramatically smaller lead margins mean up to 60% less lead margin waste (10 mm lead margins vs. 26 mm lead margins from some other brands). That means you will save both material and time by not having to cut off unnecessary label lead margins.

LabelWorks™ LW-300

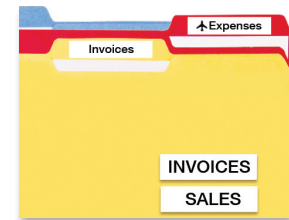

Label Printer

Built-in memory for greater efficiency

The LW-300 can store up to 30 self-created label designs in its built-in memory. Save time and avoid extra work by simply printing favorite and common labels without having to type them again.

Professional quality

Whether at home or the office, the LW-300 produces high-quality labels for any occasion. From pantry items and clothing to file folders and office supplies, you'll get professional-looking labels that will transform how you organize your life.

Features/Benefits

- **Ideal for your labeling needs** — prints up to ~½" (12 mm) wide tapes
- **Amazing variety** — 14 fonts, 10 font styles, 300+ built-in symbols, over 75 frames and more
- **Less waste** — smaller lead margin compared to other brands, for up to 60% less lead margin waste
- **Large built-in memory** — store up to 30 self-created label designs
- **Prints up to two lines of text** — more space for you to add specialty frames or symbols to enhance your design
- **Easy to apply** — automatically printed with a split back for easy and fast peeling
- **Whisper quiet** — prints labels without distracting those around you
- **Supports seven languages** — set to the language of your choice
- **Specialty labels** — iron-on, glow-in-the-dark and reflective tapes, and metallic, strong adhesive and decorative tapes for everyday labeling in and around the home or office

LabelWorks series

Take ordinary to extraordinary with LabelWorks label printers. They make it easy to create customized labels for files, storage bins, household items, clothing, scrapbooking and more. With a wide range of fonts, styles, frames and specialty modes, these easy-to-use products offer amazing versatility. And, they ensure less waste with smaller margins compared to other brands.

EX7210

Multimedia Projector

Easily Realize Your Ultimate Potential.

The EPSON® EX7210 delivers the ultimate in HD performance for compelling presentations. A breathtaking widescreen, 16:10 format produces 30% more image area than lower resolution projectors, while 3LCD technology and 2800 lumens of color/white light output¹ create brilliant color and razor-sharp detail that's sure to captivate any audience. Set up in a flash with USB Plug 'n Play instant setup, plus horizontal image correction via the innovative, user-friendly, easy-slide control bar. Get robust versatility with PC-free slideshows via USB. And, project jaw-dropping HD entertainment and media with HDMI connectivity. When you need to impress your audience and close the deal, the state-of-the-art EX7210 gives you the functionality and quality to make it happen.

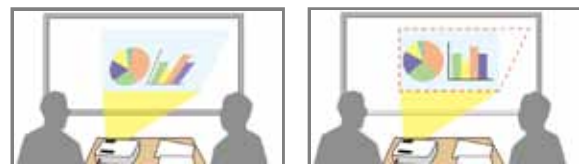

The best-selling projectors in the world

Epson offers a wide range of high-quality projectors to meet almost any need. Built with image quality and reliability in mind, Epson projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From ultraportable projectors designed for educational settings to boardroom-ready business projectors, Epson has a model that's perfect for you.

Fast, easy setup and control

Easy horizontal image correction with the new, easy slide control

Epson's horizontal and vertical image (keystone) correction means you can project a rectangular image from almost any angle. The EX7210 automatically corrects the image vertically. And for horizontal image correction, just move the easy-slide control bar to make the necessary adjustments. Your EX7210 can be off to the side and above or below the screen, while your presentation is front and center.

EX7210

Multimedia Projector

Advanced USB Plug 'n Play instant setup from your PC or Mac®

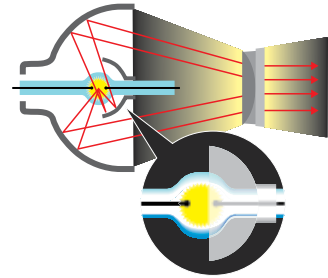

Epson's advanced USB connectivity enables instant Plug 'n Play setup for both audio and video. Forget about complicated computer key sequences and non-intuitive controls. Instead, just plug in a standard USB cable and let your presentation impress the audience!

Quick, convenient control

Features Instant Off®/On, so no warmup or cool down time is required. The A/V Mute Slide instantly pauses the presentation to bring the focus back to the presenter. And, the energy-efficient Sleep Mode decreases your overall cost of ownership.

Energy-efficient E-TORL® lamp

- Delivers more lumens per watt and lasts up to 5000 hours²
- Minimizes both light diffraction and light leakage
- E-TORL lamps maximize your presentation time, while minimizing your costs

Remarkable image quality

Brilliant widescreen performance to maximize HD media

High-definition WXGA (1280 x 800) resolution and a 16:10 aspect ratio realize the potential of widescreen notebooks and HD content, delivering amazing images and 30% more image area than lower resolution projectors, with capability for 4:3 and 16:9 images as needed.

Spectacular quality and color with 3LCD technology

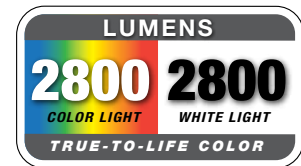

Innovative technology with proven reliability

- 3 chips for full-time, true-to-life color
- 25% less electricity required per lumen of brightness when compared to 1-chip DLP projectors³
- Over 20 years of road-tested reliability built into every projector

Amazing color and white light output

The Epson EX7210 delivers 2800 lumens of color light output and 2800 lumens of white light output¹ for rich, colorful images. Whether you're projecting images with deep, dark colors or a white screen with minimal text or graphics, you get consistent light output. And, with Epson, you can be confident you're getting what you need because Epson measures white light output according to the ISO 21118 standard, a more rigid standard than the outdated ANSI lumens rating used by competitive products.

High-quality images with HDMI digital connectivity

- Delivers both audio and brilliant video content with just one cable
- Compatible with the latest laptops, Blu-ray® and media players

EX7210

Multimedia Projector

Features/Benefits
