Beyond extraordinary comfort,

the Fit Pillow also has several remarkable **HEALTH** benefits:

**! SIGNIFICANT HEALTH BENEFITS!
WARMER FEET!
LESS BACK PAIN!
MORE CALORIES BURNED!**

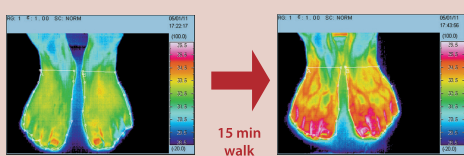

Reduce back pain.

The shoe's "tiny pillows" and advanced foot ergonomics alleviate back strain.

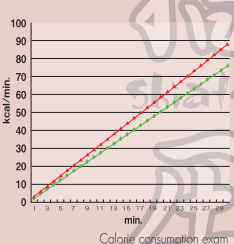

Warm up your feet.

Lab tests show the Fit Pillow can raise foot temperatures about 5.5 degrees over a 7 hour workday.

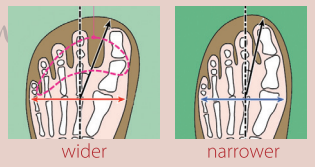

Advanced design actually helps burn calories.

Because of the increased space between your foot and the ground, additional muscular movement burns up to 12% more calories than walking barefoot, while improving comfort!

Reduce bunions

The Fit Pillow reduces the weight load on your feet and helps prevent conditions such as hallux valgus (foot bunions).

Imagine if you had tiny pillows massaging your feet for the rest of this plane flight...
