Have you ever been concerned if your children are:

- Somewhere safe?
- Where they are supposed to be?
- In distress?

Secure Your Peace of Mind with SecuraTrac

- Small, lightweight GPS devices
- Track your children anytime, anywhere
- Get unlimited alert notifications

Why It Is Important

In today's incredibly fast world, it is hard to keep track of our own lives, let alone the lives of our children.

That is why SecuraTrac is so important. Our GPS device, the SecuraPAL (Personal Automated Locator), lets you know where your kids are anytime, anywhere.

As a result, you can feel more secure when they are out of the house. Moreover, you can feel more confident letting them go to sleepovers, concerts, the movies, or other places that are fun for them, and now with SecuraPAL, less worrisome for you.

-- 1.5 million children were thought missing in 2006.

-- 4,100 children are feared missing every day.

-- 75% of parents fear that their children will be abducted.

-- 17% of teens (1 in 6) admit there are places where they never feel safe.

Incredibly Reliable and Easy to Use

Beyond safeguarding your kids, SecuraPAL is a perfect way to track pets, luggage, valuable items, and just about anything else.

Just place the key-sized device in your child's pocket or backpack, your glove compartment, your pet's collar, or your luggage.

Then, with your computer or phone, simply track your SecuraPAL through any web browser.

Securing your peace of mind does not get easier than this.

Who Can Use It

- Parents
- Grandparents
- Care givers for the elderly
- Coaches (traveling teams)
- Teachers (field trips)
- Employers
- Pet owners
- Executives (laptop bags and luggage)
- And many others

The small, lightweight SecuraPAL.

Place it with your children, pets, luggage, etc.

Get online and track it.

Secure your peace of mind.
